Dish Washing Checklist - Machine

Dish washing machines must be checked regularly to ensure optimal results. Please refer to your specific machine's product manual for details.

Dish Washing Machine Inspection Checks	Yes	No
Water, detergent and sanitizer levels are checked every 4 hours.		
Wash and rinse waters are drained and refilled every shift or every 2 hours.		
All pipe		

Receiving Log

All Deliveries must be accurately recorded in this log to help ensure customer safety, and provide tracking information in the event of a food recall or return. File for 3 months minimum.

Week Of: _____

Date/Time	Product	Supplier	Condition/Special Notes	Temperature	Initials

Allergy Awareness Checklist

Use this checklist to assess your establishment's current allergy management status. It provides best practices for developing an allergy HACCP plan to help prevent allergic reactions from occurring in your workplace.

Choosing a Supplier Report

It is your responsibility to ensure the food you serve your customers is safe. Suppliers must be regularly checked to ensure they are in compliance with the guidelines and recommendations of the Canadian Food Retail and Food Service Regulations and CoC CFIA and HACCP Guidelines.

To ensure you are retaining preferred vendors, check the following:

Questions to Ask Suppliers	YES	NO
Do they have a HACCP system in place?		

Time & Temperature Checklist

Type of Food	Minimum Required Temperature	Minimum Required Time	Actual Temperature	Compliant	Comments/ Required Action
Whole Cuts Beef/Veal:					
Rare	> 63°C (147°F)	3 Minutes			
Medium	> 71°C (160°F)	15 Seconds			
Well	> 77°C (170°F)	15 Seconds			

Pest Control Report
